O. Health Information Portability and Accountability Act (HIPAA)

The Federal Department of Health and Human Services (HHS) established HIPAA Standards for Privacy of Individually Identifiable Health Information (The Privacy Rule). The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

P. General Duties and Additional Responsibilities

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

Q. NYS Information Security Breach and Notification Act (NYS Technology Law, § 208)

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

The “New York State Information Security Breach and Notification Act” requires entities that conduct business with New York State and own or license “private” data to notify state residents affected by any security breach that results in unauthorized acquisition of the data. “Private” data is defined as unencrypted computerized information that can identify the individual, combined with one of the following data elements: (a) social security number, (b) driver’s license or non-driver identification number” or (c) financial account information such as credit card or debit cards numbers in combination with access codes or PIN numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – "Form A" and "Form B".

In general, however, Form A is to be completed once upon initial contract award and is used to report "planned employment". Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

17. Evaluation Criteria: Method of Award

OPWDD will select the responsible and responsive Bidder that will provide the lowest Estimated Annual Snow and Ice Removal Services Total for All Sites. Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. Alterations to the Cost Proposal Form may result in disqualification. All sites must be filled out to be considered. OPWDD reserves the right to reject any and all offers.

The award will be based on the anticipation of 15 annual snow removal and/or ice removal (de-icing) events. It is understood that this is an estimate only. There may be more or fewer snow

removal and ice removal events annually. There is no guarantee and payments will be made based on actual services rendered. Contractor shall have adequate staff and equipment to accomplish the snow and ice removal services without delay. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.

Should mathematical errors be made by the bidder when calculating the Snow and Ice Removal Services Total (Column C), the Estimated Annual Snow and Ice Removal Services Total (Column D), or the Estimated Annual Snow and Ice Removal Services Total for All Sites, the prices given in Column A (Snow Removal Service Price per Event) and Column B (De-icing Service Price per Event) for each site will be used to determine the bidder who has provided the lowest Estimated Annual Snow and Ice Removal Services Total for All Sites.

In the event of a tie bid, the award will be made by random selection.

Qualifications & Scope of Work

The following specifications cover Snow and Ice Removal for OPWDD community residences in Kings County. A site listing with addresses and telephone numbers is included in Exhibit A – Site Information. The residences are occupied by a developmentally disabled population including some individuals who are medically or physically disabled, as well as some who are confined to wheelchairs. OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.

It is extremely important during inclement weather that all efforts are made to have the sites accessible and safe for individuals and staff. In order to have accessibility, snow removal shall automatically commence at the accumulation of 3 inches at the contracted site. It is the Contractor's sole responsibility to ensure they are aware of when each site on this contract has accumulated 3 inches of snow. The House Manager or designee has the right to call for additional service as deemed necessary for safety concerns. Service shall be provided 7 days per week and 24 hours per day, including holidays.

The Contractor's employees will adhere to all OPWDD policies and regulations, including but not limited to smoking, parking, etc. The Contractor shall cooperate with House Managers and staff and will comply with the safety and security requirements imposed by the site.

I. DETAILED SPECIFICATIONS:

A. Snow Removal Services

Snow must be removed from driveways and sidewalks, including all entries, stoops, parking areas, and existing fire stairs and fire escapes for all the homes. Walkways must be cleared wide enough to accommodate wheelchairs. Dumpsters must be clear of snow to allow for refuse removal.

All driveways and parking areas must be cleared of accumulated or drifting snow of 3 inches or more by 7:00 am every day.

Driveways, parking areas, and parking exits are to remain open and at full width and visibility throughout the contract period.

All snow must be removed in a manner that allows safe passage and does not promote the buildup of ice or snow. Snow shall not be pushed against houses, vehicles, buildings, entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, or emergency generators. Care must be taken to not damage or push snow on adjoining properties. Snow shall not be placed where it blocks public walks. Snow must not be piled up or blown in front of neighbor's property or public street.

All snow must be cleared from the length of the municipal sidewalk for which that site is responsible. No sidewalks shall be blocked by snowbanks. Any fines, penalties, or assessments resulting from failure to clear municipal sidewalks as required by local law shall be charged to the Contractor.

B. De-Icing Services

Contractor must be able to provide ice control services 24 hours per day, seven days per week for community residences. This includes sleet and freezing rain occurrences as well as during snowfall events.

De-icing application must immediately follow every plowing to bare surface. Calcium chloride and sand must be spread after each clearing is completed for control of ice. Additionally, after an ice storm or freezing rain, the Contractor may be called in to spread calcium chloride and/or sand. De-icer will be applied at rates and densities in line with industry standards and sufficient to maintain all affected areas so ice buildup is minimized in order to avoid potentially slippery conditions.

Ice must be removed from driveways and sidewalks, including all entries, stoops, parking areas, and existing fire stairs and fire escapes for all the homes. All ice must be removed in a manner that allows safe passage and does not promote the buildup of ice or snow.

Contractor shall supply all appropriate Material Safety Data Sheets (MSDS) to each contracted site's House Manager or designee.

C. Contractor Damages

Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas. The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures of the State or neighboring properties caused by the contractor's employees or equipment. The Contractor must notify the House Manager or designee immediately of an event causing damage to the property.

The Contractor shall be responsible for, and will be notified by OPWDD of, all damage to buildings, curbing, walkways, fences, signs, trees, shrubbery, etc. as it is discovered and until the end of the snow season. At the end of the snow season, the Contractor shall be solely and wholly financially liable for any reported damage and shall comply with the instruction of the Plant Superintendent, House Manager, or designee in returning the property to its pre-season condition.

The Contractor must complete all damage repairs by April 30th of the calendar year. If the repairs are not completed by that time, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the Contractor that caused the damage or reduce payment for the total cost incurred.

If Contractor causes damage to a staff or State-owned vehicle, the Contractor must notify the House Manager or designee immediately. Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person if it was a personal vehicle.

D. Additional Requirements

within two (2) hours of call. Contractor must provide a phone number for accepting calls 24 hours per day and 7 days per week. OPWDD must be notified immediately of any phone number changes.

Under no circumstance shall the Contractor move any vehicles, personal or State owned. If vehicles block the driveway or parking areas, every effort must be made to have staff at the sites move vehicles in order to allow a complete clearing of parking areas and walkways. It is highly recommended that the Contractor call each site 15 minutes prior to arrival to give staff time to move the vehicles. The Contractor is not responsible to shovel out vehicles. There may be occasions where staff are unable to move vehicles due to staffing levels. In such cases, Contractor is to clear snow as best they can and inform House Manager or designee.

Contractor shall have adequate staff and equipment to accomplish the snow removal and ice control services without delay. All equipment used in this service must meet the manufacturer's safety requirements and be properly installed and functional. All vehicles and equipment must be operated in a safe manner. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.

Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of snow and ice control services.

Pursuant to the conditions above, the method of snow removal, equipment used, and plan of action shall be up to the Contractor's discretion.

In the event the Contractor fails to remove snow, within the time frames listed above and the OPWDD is required to procure services from another vendor, the Contractor may be held liable for any costs over and above the contractual price for the site(s) involved. In such a situation, the additional cost for these services will be billed to the Contractor or payment will be reduced for the additional cost incurred.

E. Extra Services

Extra services, such as snowbank pushback and snow removal with heavy equipment are not covered under this contract. Contractor may provide a price quotation for these Extra Services upon request. A purchase order authorizing services will be issued prior to commencement of services. OPWDD reserves the right to obtain additional proposals from other vendors.
