The durations of each individual session within a day must be combined, but individual and group sessions provided in the same day must not be combined.
 - (2) Rounding. Only the total minutes of the specific billing category (individual or group) for the day may be rounded up to the next 15-minute increment. If there are multiple periods of service during the day, the provider must combine the total minutes for the specific billing category (individual or group) for the day and may not round each specific service period separately. The provider should determine how many 15-minute increments were provided for each specific service. If there are additional minutes of the specific service provided that do not meet the full 15-minute increment, the additional minutes may be rounded to one additional 15-minute increment if there were 10-14 minutes of additional service.

 - (i) time when the service provider is providing SEMP services as specified in this Subpart in support of the individual's supported employment /staff action plan; and
 - (ii) time when service provider is developing the supported employment staff action plan.

Allowable SEMP services provided with the individual present must not be delivered when the individual is simultaneously receiving another direct Medicaid service (except for Care Management).
- (ii) Intensive and Extended SEMP cannot be delivered to an individual on the same date of service.

(5) Documentation.

- (iii) The service provider must maintain documentation that funding is not available or not required from NYS ACCES-VR.
- (iv) The service provider must report quarterly on Supported Employment (SEMP) data and related requested information in a form and format specified by OPWDD.
